The Main Benefits of Voice Picking

- Voice picking creates a more accurate environment, though a more focused approach with no distractions — the paper, processes, key-pads.
- Increased productivity is a result of the personal voice directed dialogues.
- Improves Health & Safety issues as lifting and carrying is more accessible.
- Reduced new worker training time — cut training from days to minutes.
- Growing customer satisfaction — quicker dispatch, less errors, less returns.
- Reduced administration costs — forms, paperwork, duplication, staff time.

Voice picking can increase accuracy, speed, turnaround and decrease Health and Safety issues and can be used on its own or in conjunction with scanning solutions.

This strong partnership has been developed to fill the need for more effective solutions for companies dealing with bulk/ heavy items, cold storage, consumables, and who deal with large distribution products.
